Answer This, if You Know.

Even if the judges pass on the

merits of dozens of bits of verse

weekly they must confess to not being

overfamiliar with knitting, except in

so far as it concerns the finished prod-

uct and its by-product of Sock Songs. So we are printing the following in the

hope that some of the better informed among our readers will be able to help

Mrs. M. L. Hallock of Jamesburg,

I have just received as a present one of the much advertised "2 in one" knitting needles, but without any directions. Can you tell me if they have proved of any use? And if so, can some one give the directions as the lady did last week for the "twin socks"? The latter look to me utterly inexplicable. I am a very old knitter and I am sure I could knit a dozen pairs while I was mastering those intricacies. I would like to find out if this circular needle seems as impossible.

Honorable mentions this week will

does it matter? The Sock Song idea is doing its "bit" by amusing us and keeping our thoughts at times from more serious things.

KATHERINE LEONARD.

414 Ferry street, Trenton, N. J. country coupled with the cool weather has increased the crop of Sock Songs quite perceptibly. As the prize winning ones and the honorable mentions letter that follows make the judges show, the quality has not fallen off a swell perceptibly: bit. In fact, with more to choose from the judges have been able to pick better ones each week.

Much to our pleasure, we wish to record that no more complaints have come in about "pig knitting" and we hope there will be none. That mean and miserable practice is too con-temptible for words and it was with pain that we called attention to it last week.

It has been most gratifying to the youthful readers. Hence it is most judges to see the high standard of the pleasing to print this: entries, and still more gratifying to een non-winners keep trying, for this last feature shows plainly the spirit that is winning the war—the never give up, persistent drive that will take our men in their home knit socks straight to Berlin.

First prize this week goes to C. H. Bradley of 1522 Thirty-first street, Washington, D. C., for a song that meets every ideal of a Sock Song, as you all will agree. An ever increasing number of Sock

Songs reflect the thought expressed by the second prize winder, Louise S. Nichols of 83 Kimberly avenue, New Haven. As the casualty lists grow this thought will spread without doubt. Although the third prize winner alst forgot to emphasize the knitting end, there is enough of it to permit an award, so Charlotte Becker, 72 Ashland avenue, Buffalo, will get in the winning class.
